

PGR Working Group Launch

We're building a working group within our union branch for PGR students who work alongside their studies, and you're invited to join! We need your views on working conditions. We're concerned about:

- precarious zero-hours contracts in teaching
- availability of work in teaching
- uneven teaching positions across faculties
- what constitutes work (e.g., prep time)
- training for work
- time limits (especially for international students)
- progression with teaching qualifications

As a working group we can shape the action of our branch, and push for better working conditions with the senior leadership team. Our launch event will be in the PGR office in the Faraday Building on Singleton Campus at *4pm on Thursday 12th December*.

Keep in touch!
